

GLIDER: SOCIB'S UNDERWATER ROBOT

Underwater gliders collect data from the ocean. Oceanographers use them to find out about the temperature, the amount of salt in the sea and much more...

How do you think the glider sends the data to the SOCIB?

NAME AGE

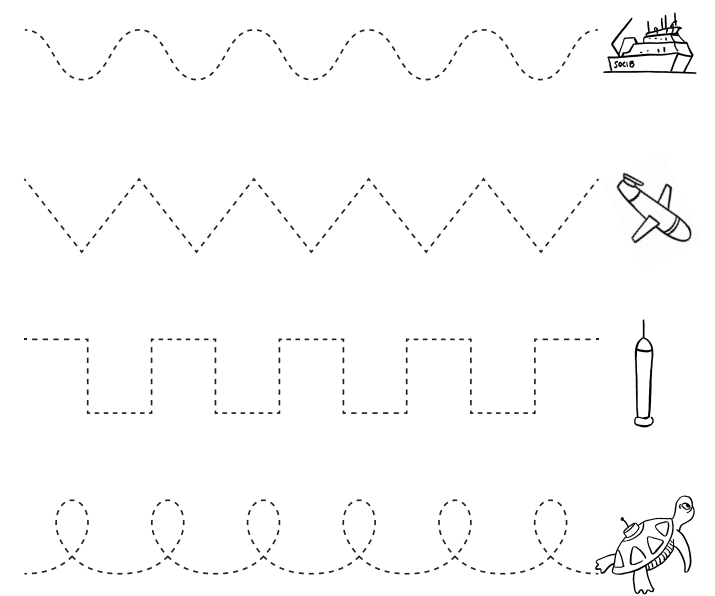

How do my family and I help preserve the ocean?

.....

.....

.....

Complete the route for SOCIB's instruments and the turtle.

DID YOU KNOW? SOCIB ... has a web site, medclics.es, where you can see all the technology it uses in the Mediterranean, including gliders. You can also see videos, interesting things to learn about, and there's an app where you can discover the sea, by playing with Glidey on your tablet!
