ACTIVITIES

Young oceanographers

Experiments for young students

Adriatic in a café

Scientific talks for general public

Board games

Various games for all interested participants

9/7/2021, 10/7/2021

Vela Luka (Korčula)

6/8/2021, 7/8/2021
Ugljan (Ugljan)

20/8/2021, 21/8/2021

Vrboska (Hvar)

WORKSHOPS

Little guardians of the sea

Sea vows

ADRIATIC IN CAFÉ

- Meteotsunami in Vela Luka (1978.)

dr.sc. Jadranka Šepić

- Climate changes - are they already happening?

dr.sc. Natalija Dunić

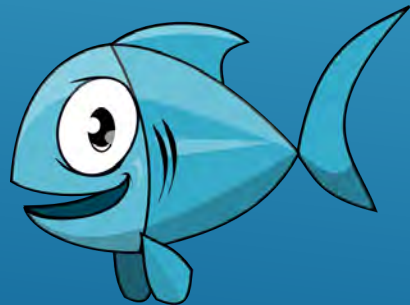

- Meteotsunami in Vrboska - past, present and future

dr.sc. Jadranka Šepić

CONCLUSIONS

- ▶ A great way to reach and educate young age students about the sea, ecology and climate changes
 - ▶ Stimulate science curiosity and research spirit through the experiments and games
 - ▶ Outreach the local community with relevant topics in the area (oceanographic topics)
- 
- A decorative graphic consisting of several parallel white lines of varying lengths, slanted diagonally from the bottom right towards the top right, located in the lower right quadrant of the slide.

FUTURE ACTIVITIES:

July 2022
Selca (Brač)

October 2022
Mali Lošinj (Lošinj)

September 2022
Komiža (Vis)

TOPICS:

- risk of local floods
- tsunamis
- sea currents
